

Interested in integrating engineering into your classroom?

# E4 Conference January 28, 2010

St. Catherine University  
2004 Randolph Ave  
St. Paul, MN 55105

## Excellence in Elementary Engineering Education Conference

**Need** Information on the new engineering requirements in the Minnesota Science Standards?

**Wondering** what engineering is and how you can possibly teach it?

**Looking** for ways to integrate engineering projects into an already packed day?

**Searching** for advice, resources, lesson plans and ideas about elementary engineering?

**Ready for professional development about the engineering design process?**

### Attendees will leave the conference with

- Information on new elementary engineering standards
- Knowledge of engineering and why it's important
- Great activities you can bring back to your classroom
- The confidence and know-how to instruct your students
- Solid ideas to integrate engineering into other subjects

**Complete Conference schedule will be available at [www.theworks.org](http://www.theworks.org)**

*Register online by credit card or use the form below.*

### Engineering is a great topic for your elementary classroom!

It motivates and reinforces science and math lessons as it develops children's imagination, creativity, problem solving, team work, communication skills, and more.

**6 CEU's are available for full participants.**

### REGISTER EARLY- SPACE IS LIMITED
