

The Works Museum Job Posting

Job Title: Summer STEM Educator

Department: Learning Experiences

Reports To: Senior Director of Learning Experiences

Status: Part time 20-35 hours/week June 3 (for training) through August 26, 2016. Must be able to work occasional nights and weekends; non-exempt. Seasonal.

The Works Museum makes learning about science and engineering interesting, engaging and fun. The Works' unique exhibits and programs create memorable learning experiences for all children. Our mission is *to inspire the next generation of innovators, engineers and creative problem solvers.*

The Works is looking for educators to work with groups of children ages 5-12 delivering our summer day camp, group workshop and outreach programs. We are looking for people who share our passion for science, technology, and engineering.

This educator will be dedicated to:

- Making engineering inspiring, relevant and accessible to elementary school children.
- Creating an environment that welcomes every child, parent, and group leader.
- Facilitating open-ended problem solving and experiential learning.

Requirements

- Bachelor's Degree or equivalent experience in Elementary Education or Secondary STEM Education
- At least 1 year experience working with elementary-age children in an informal or formal setting
- Excellent verbal and written communication skills.
- Interest and/or background in a STEM field.
- Experience working with diverse communities.
- Ability to lift 50 pounds on occasion.
- Have valid MN driver's license.

Personal Attributes

- Proven ability to work in a team setting but also work independently.
- Punctuality, attention to detail and excellent follow-through.
- Flexibility and a good sense of humor.

To Apply: Please submit electronic cover letter and resume to jobs@theworks.org. Open until positions are filled. No phone calls, please.
